  Be the first of your friends to like this.

Rome is a city where you can fully embrace la dolce vita, especially if you opt to stay in style and intimacy in one of its boutique hotels. Whether it’s a chic and central escape near the Spanish Steps or a hilltop retreat commanding knockout views of the Italian capital, we’ve sought out places that skillfully bring together history, design, entrancing views, and tempting food.

A rare haven of tranquility in Rome, [Hotel San Anselmo](#) takes pride of place in the gentrified neighborhood of Aventine, the southernmost of the city’s seven hills. Occupying a 19th-century villa, it captures all the grace of a bygone era in its near-palatial interiors, rich with brocades, gilded furnishings, crystal chandeliers, and damask-draped beds. The romantic rooms are honeymoon material, with lavish décor and marble or mosaic-tiled bathrooms.

When the weather is fine, you can start the morning with seasonal fruits and homemade pastries in the courtyard garden, scented with oleander and oranges.

Though peaceful, the district is well placed for exploring the markets and synagogue of the Jewish Ghetto, and is just over a 10-minute walk from the Circo Massimo and Piramide metro stops
